## September Virtual Chapter Meeting Presentation: Best Practices in Organizational Change Management

Please join us on September 14, 2020 for our next PMI Tallahassee chapter meeting. Our guest speaker, Christopher Voehl, will be discussing Organizational Change Management, including the role of Business Cases in driving change within organizations. We look forward to your participation!

In today's exponentially growing and changing technology landscape, organizations face unacceptable levels of risk when attempting to enact change. In order to mitigate this risk and the potential loss of thousands of dollars (for larger projects this could be millions) and countless resource hours, organizations need to rethink their traditional approach to change management and embrace A New Model for Sustainable Change. For many organizations, Change Management follows the tried (and failed) approach of telling people what to do, then sitting back, expecting results, and then putting countermeasures in place after the inevitable failures in end-user adoption begin to surface. This costly and cyclical endeavor can be avoided by starting at the top and enrolling those within the organization who will be most impacted by the change. This presentation will illustrate how to go beyond training and communications, to breaking the status quo and embracing new paradigms of innovation and change. Christopher F. Voehl, PMP is the Vice President of Program Management at Vitaver Staffing, Inc., a Florida based firm with over 25 years of IT staffing experience. Chris's background in systems analysis and administration, quality management, project management, and change management make him ideally suited for the technology and process challenges facing organizations today. Currently a delegate member of the International Standards Organization (ISO), Chris is part of a team that recently completed development of the new ISO 56002 Standard for Innovation Management Systems while promoting best practices for organizations to embrace a culture of innovation.

## Membership Renewals to the Chapter

Important Information Regarding Chapter Membership Auto Renewal Changes:

- Similar to a PMI Membership, when you complete a Chapter Membership purchase, your Chapter Membership will now be automatically opted-in for auto renew,
- Your Chapter Membership will move onto the same cycle as your existing PMI Membership renewal cycle,
- If you wish to opt out of the Chapter auto renewal post-purchase, you must opt out in your myPMI profile. Please be advised that opting out of Chapter Membership auto renew will cancel auto renew for Chapter Membership only. Opting out of auto renew for PMI Membership will cancel auto renew for both your Chapter Membership and PMI Membership.
- If you opt-out of auto renew for your PMI Membership and later return to renew manually, the system should NOT automatically opt you in for auto renew going forward. You will not be required to save your payment details to complete checkout.
- Existing Chapter Memberships and PMI Memberships will continue to auto renew in USD only (until December 2020)
- **\*Please note that Student and Retiree PMI Memberships require manual renewal -Auto renew is not an option.**

To prevent a customer from buying a Chapter Membership twice or purchasing a Chapter Membership for an undesired short duration, there are new rules to restrict Chapter Membership purchases and improve the Chapter Membership experience:

- When you attempt to purchase or renew a Chapter Membership you will be restricted from purchasing/renewing a Chapter Membership if you do not hold an active PMI Membership and/or do not have a Membership product in your Cart,
- If you are a PMI Member who is eligible for renewal (i.e. in last 3 months of your current membership), you must have a PMI Membership renewal product in the Cart in order to purchase any Chapter Membership,
- If you purchase a Chapter Membership after purchasing a PMI Membership, its renewal cycle will automatically align to the PMI Membership auto renewal cycle.
